Solutions Tailored to Your Industry

CGS specializes in delivering Microsoft Dynamics 365® for Specialty Retail and Professional Services organizations. Leveraging the power of Dynamics 365®, CGS offers integrated solutions that support critical business processes and information management.

As part of Microsoft's® Technology Adoption Program (TAP), we provide early feedback on new products and updates. Leveraging our extensive expertise in the retail and professional services space, we stay on top of the latest and greatest technology developments from Microsoft® and pass this knowledge and expertise along to our customers.

About CGS

CGS's team of experts is ready to deliver the right solution for your business. Our certified consultants have deep industry expertise and ensure that your systems' configuration is tailored to your needs. They then help manage the implementation for timely software installation, lower maintenance costs and quicker return on investment. We offer both on-premises and managed cloud delivery. To learn more, contact us at applications@cgsinc.com.

- **Original creators** of Dynamics AX® PSA
- **15+ years experience** working in Professional Services space
- **200+ Active Customers** using Dynamics®
- **Development Resources** in USA, Romania and India
- **Implementation Capabilities** across North America, Europe & India

With each implementation, we achieve better decision making and greater cost savings – AX® just ties us together so much tighter as one company. **

– Russ Harker, MDAX Program Advisor, AMEC PLC

Dynamics AX® could be configured for the solution we needed now, and reconfigured to provide new solutions in the future. Without CGS, I don't know how we could have moved ahead. **

– Dan Hefferon, Performance Contracting Grp. SVP and CFO
